

Insurance for your Agribusiness & Landscape Contracting Business

Whether you're growing, selling, and/or installing plants, LaPorte has the insurance services you need. LaPorte insures more nurseries and landscape contractors than any other agent in the Northwest. We design insurance programs and services for the unique needs of nurseries, landscape contractors, arborists, farms, retail outlets and co-ops.

COMMITTED INDUSTRY GREEN TEAM

Our insurance and risk management programs are specifically designed for the green industry. From policies with specific coverage for your needs, to loss control services and safety programs offered in both English and Spanish, it is our team's focus to bring unique expertise to meet your business needs.

ACCESS TO THE RIGHT CARRIERS

LaPorte has access to many regional and national insurance carriers. Unlike many other agents who have just one carrier for their specific program or use a wholesaler to access carriers; LaPorte will market your business directly to the right carriers to meet your green industry needs.

NATIONAL PRESENCE

Our national experience provides us with a perspective on industry trends, coverage improvements, carrier performance, and claims scenarios that can truly impact your business.

CLAIMS SERVICE

Part of the service you receive at LaPorte is access to an in-house claims administrator that will keep you informed throughout the entire claims process. Providing claims assistance immediately helps you to resolve your complex claims quickly and efficiently.
