# EZMESSAGE

## Stay in touch

EZmessage is EROAD's innovative messaging solution that enables you to stay connected with your fleet using the Ehubo hardware that sits in your vehicle.

EZmessage is a cost-effective way of communicating as it eliminates SIM costs and the need for third-party hardware and obsolete data terminals.

### KEY FEATURES

- Broadcast a message to your entire fleet
- Know when the message has been received and read
- Set up quick messages for your drivers to use
- Message screen is inactive while vehicle is in motion
- Encrypted transmission of messages between the system and in-cab hardware
