

OVER SPEED REPORT

Accelerate safety

Speeding is a major factor behind serious crashes, which can hurt your business reputation and bottom line. Greater transparency around driver speeds allows you to better manage risks and improve safety and performance across your fleet.

EROAD's Over Speed report provides a record of vehicle speeding events that exceed posted speed limits. It presents an overview of the speeding behavior across your fleet and enables you to focus on individual speeding events for improved analysis.

KEY FEATURES

- List of vehicles that have over speed events by day, month, year
- Color bar charts that show frequency of speeding events by vehicle
- Details of speeding events including location, date, time and duration
- Export your reports to PDF and CSV formats
