

ELECTRONIC HOURS OF SERVICE

Get ready to go electronic

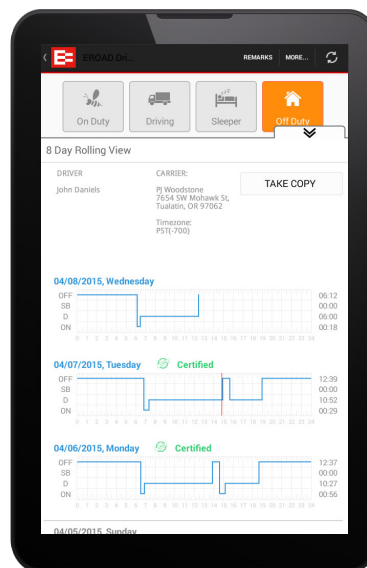

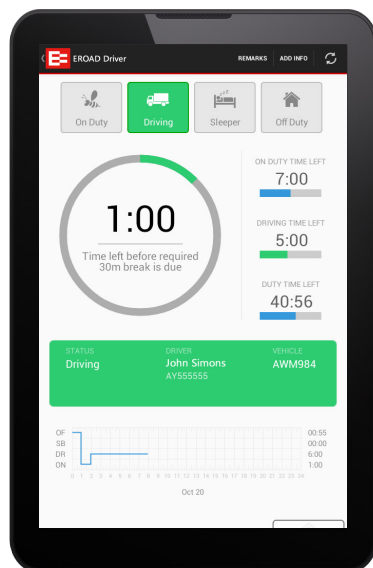

Provide your drivers and dispatchers with EROAD's simple and effective Electronic Logbook application, which captures driver duty status and generates automatic alerts about rest breaks and potential HOS violations.

Simplify your record keeping by accessing your driver logbook reports in real time on EROAD's secure web platform, Depot. Take away the guesswork and manage driver fatigue and work scheduling based on actual hours per day, and export data to your payroll system.

EROAD Electronic Logbook will modernize your business and prepare you for adopting an ELD solution that will satisfy the forthcoming FMCSA mandate.

KEY FEATURES

- Intuitive Android application to capture, view and annotate driver records
- Automatic alerts that assist drivers to comply with Interstate Property HOS rules
- Allows drivers to edit and correct records before certifying with an electronic signature
- Secure authenticated driver login to ensure integrity of driver records
- Ability to display and email Logbook data to support roadside inspections
- Real-time accessibility and storage of driver records

ELECTRONIC LOGGING DEVICE (ELD)

- ELD solution will integrate with EROAD in-vehicle hardware
- Solution architecture eliminates the requirement to purchase and support additional in-vehicle hardware
- Overcomes shortcomings associated with legacy AOBR solutions
