

Architects and Engineering Insurance Program

Design and Engineering firms have long faced a dynamic set of challenges when it comes to insurance products and services. At LaPorte, our insurance professionals provide solutions that are developed with a deep understanding of the current and future needs of our clients. Through constant communication, information sharing and research we provide risk management advice and insurance programs designed to meet your needs in an ever-changing environment.

ACCESS TO THE RIGHT CARRIERS

LaPorte brings to market a host of both regionally and nationally recognized insurance providers, with the capacity to handle the unique exposures inherent in your business. This broad access allows us to present your program to the appropriate insurance provider, in order to ensure the best blend of products, services and pricing structures.

EXPERTISE & EXPERIENCE

Our experienced professionals begin with an assessment of your existing program to determine gaps in coverage and make informed recommendations on risk transfer techniques to protect your assets. We will work in tandem with you, to ensure all of your firm's insurance needs are met.

DEDICATED TEAM

The LaPorte Architects and Engineers team proactively assists you through every stage of the risk assessment process and insurance procurement cycle. We don't simply "place" coverage. We work to build programs that match the specific needs of each client. In addition to the services offered by traditional agents, LaPorte gets to know you and your business. We are not only your agent but we are your partner and advocate.

CLAIMS SERVICE

Experiencing a claim can be stressful, and the best way to minimize that is through communication. Our dedicated claims administrator will provide quick and efficient assistance that will keep you informed throughout the entire claims process.
